Zoning Adjustment: Lanais

Application Instructions

This document is intended to assist you in preparing a complete application, and should be read in conjunction with the Land Use Ordinance (LUO).

I. Overview

A. Applicability. Where practical difficulties or results inconsistent with the general purpose of the LUO would occur from its strict literal interpretation, the adjustment review process provides a mechanism by which specified regulations may be modified to provide flexibility for unusual situations and to allow for alternative ways to meet the purposes of the LUO, while continuing to provide certainty and efficient processing. See LUO Section 21-2.140-1(e) for details.

B. Standard of Review. Lanais which are part of buildings that have reached the maximum permitted floor area may be enclosed, if they meet all of the following criteria:

1. The enclosure meets a unified design scheme approved by either the condominium association or the building owner, whichever is applicable; and

2. Other lanais in the building have been similarly enclosed; and

3. At least one lanai, which has already been enclosed, was done so legally.

C. Time Frame. The time frame for processing this permit is 45 days from acceptance of a completed application. However, the time limit may be extended under certain circumstances. If the DPP fails to process this permit within the required time frame, the permit shall be deemed approved.

II. Application Requirements

A. DPP Master Application. Complete and submit the DPP Land Use Permits Division Master Application Form. Provide all requested information.
B. **Fee.** The application processing fee is $600. There is an application review fee of $200 (non-refundable) which shall be applied to the $600 processing fee upon acceptance. Please submit two separate checks (and/or money orders), one in the amount of $200 for the application review fee and another check for the remaining portion of $400 (which will be returned if the application is not accepted). All fees should be payable to the City and County of Honolulu. Checks or money orders which are not properly authorized or that are more than 3 months (90 days) old will not be accepted; and, applications submitted without the proper fees will not be further processed.

*Note: When an applicant applies for a zoning adjustment after being cited for taking action without having obtained necessary approvals, the application fee set forth above shall be doubled and the application review fee is based on the total application fee after it is doubled. The payment of the fee required by this section shall not relieve the Applicant from compliance with the LUO or from penalties imposed there under.*

C. **Written Statement.**

1. Authorization from the condominium association and/or building owner for the proposed lanai enclosure, including approval of a standard design, i.e., the unified design scheme.

2. Documentation (e.g., copy of building permit) to show that at least one lanai which has been enclosed was done so legally.

D. **Drawings/Plans.** Submit two (2) sets of the following fully dimensioned drawings and/or plans applicable to the project. All drawings/plans must be black line prints, drawn to scale and prepared by a draftsman, architect, engineer, or similar professional. For document imaging purposes, one (1) set of drawings shall be a maximum size of 11" x 17" and the second should not exceed 24" x 36". DPP staff may request additional copies after acceptance of the application.

1. **Site Plan.** Drawn to practical scale, showing:
   
   a. Property lines, lot dimensions and area; easements, and building, stream, and other setback lines, including shoreline and shoreline setback lines; and

   b. Location, size, and dimensions of all existing and proposed structures, and building setbacks from property lines;

2. **Exterior Building Elevation Drawings.** Exterior building elevation drawings, showing the number of floors, and the unit/apartment numbers with previously enclosed lanais indicated.
3. Detailed Floor Plans, Elevations, and Sections. These plans should show each type/variation of lanai enclosure proposed, including selection of materials and colors.

*Note: All scaled plans and drawings must include a graphic ("bar") scale in addition to or in lieu of a numerical scale.*

Please note that the Zoning Adjustment is granted for the entire building, not just for individual apartment units. For this reason, the plans must show other lanais and reflect a uniform design that will be used for all lanai enclosures.

All plans submitted with the application must be prepared by or under the supervision of a LICENSED ARCHITECT and certified (stamped, signed and dated) by the licensed professional.

*Note: Applications which do not include plans certified by a licensed architect will be rejected.*

E. Photographic Documentation. Photographs of the apartment building and existing enclosed lanais, and any other information you feel supports your request.

*Note: All photographs should be dated, labeled and keyed to a location map which shows the direction the photographs were taken.*

F. Supplemental Information. Additional information which may be required to successfully process the application by the DPP.

G. Environmental Assessment. If the project is subject to the requirements of Chapter 343, Hawaii Revised Statutes (HRS), the Environmental Impact Statement (EIS) law, then provide documentation of compliance.

1. If the project involves an exempt class of action, pursuant to Section 11-200-8, Hawaii Administrative Rules (HAR), then provide written documentation of such exemption from the appropriate proposing and/or approving agency (for projects subject to HRS Chapter 343, only); or

2. Submit two (2) copies of the Finding of No Significant Impact (FONSI) or EIS for the project.

*Note: If the project requires an Environmental Assessment (EA) or EIS, then this must be processed before the Zoning Adjustment application will normally be accepted for processing. If the DPP is going to be the accepting agency for the EA or EIS, please note that*
there is now a $600 and $1,200 processing fee, respectively. Additionally, there is a non-refundable application review fee of $200 and $400, respectively, which shall be applied to the processing fee upon acceptance. Submit two separate checks (and/or money orders) for the two fees ($400 processing fee and $200 review fee for the EA; $800 processing fee and $400 review fee for the EIS). All fees should be made payable to the City and County of Honolulu. Checks or money orders which are not properly authorized or that are more than 3 months (90 days) old will not be accepted; and, applications submitted without the proper fees will not be further processed.

3. If the project is not an exempt class of action, but is associated with a prior FONSI or EIS, then a determination must be made that a Supplemental EA or EIS is not necessary before the zoning adjustment application will be accepted for processing. Therefore, provide detailed written justifications why the proposal does not require the preparation of a Supplemental EA or EIS.

Note: If the project has substantially changed in size, scope, intensity, use, location, timing, or other means since the time the FONSI was issued or the EIS was accepted, and the project will involve significant effects, then the must prepare a supplemental assessment prior to submitting the application for the zoning adjustment. The supplemental assessment will be processed in the same manner as the EA or EIS (see Subchapter 10 of Chapter 200, Title 11, HAR, for details).

III. Electronic Document Submittals. The submittal of electronic documents, either in whole or in part of this application, is encouraged; and, shall be at the sole discretion of the . Electronic document submittals shall adhere to the following specified formats: PDF (Adobe Reader 9 or earlier), JPEG, or Word (2003 or earlier). Electronic documents must be submitted on either CD or DVD. No individual electronic document shall exceed 15 megabytes in size; any electronic document involving a larger size must be broken down into smaller size files. ALL maps, drawings and /or plans must be drawn to an appropriate scale, and must include a graphic ("bar") scale accurately representing the applicable scale of the document.

For further assistance or information on how to complete the application, please call the DPP at 768-8021.
