

**CITY AND COUNTY OF HONOLULU
DEPARTMENT OF PLANNING AND PERMITTING**

**Cluster Housing
Country Cluster
Agricultural Cluster**

Application Instructions

This document is intended to assist you in preparing a complete application, and should be read in conjunction with the Land Use Ordinance (LUO).

I. Overview

- A. Applicability. The purpose of these permits is to allow the development of housing sites which would otherwise be difficult to develop under conventional subdivision standards, to allow for flexibility in housing types, to encourage innovative site design and efficient open space, to minimize grading by allowing private roadways, narrower roadway widths and steeper grades than otherwise permitted, and to provide common amenities when appropriate.

For Country and Agricultural Clusters, it is also intended to promote economy of services and utilities, to encourage the retention of large tracts of open space or agricultural lands (for agricultural pursuits) which contribute to a rural character.

- B. Time frame. The time frame for processing this permit is 60 days from acceptance of the completed application. This time frame may be extended under certain circumstances.

II. Pre-Application Procedure: Conceptual Review. Prior to submitting an application, an applicant may request a 21-day conceptual review of the project by the DPP by submitting a preliminary site plan of the project indicating the following:

- A. Approximate location and dimensions of all proposed structures, roadways, common open areas and recreational facilities.
- B. Conceptual landscaping plan with existing contours at vertical intervals of five (5) feet where the slope is greater than ten percent (10%) and not more than two (2) feet where the slope is less than ten percent (10%).

- C. Designated areas for grading with approximate amounts of cut or fill.

The DPP will comment on the basic project concept, the number and general location of all dwelling units and other structures, the location of all common areas, and the preliminary landscape plan. The 21-day conceptual review is encouraged but not mandatory.

III. Application Requirements

- A. DPP Master Application. Complete and submit the DPP Land Use Permits Division Master Application Form. Provide all requested information.
- B. Fees. Submit the appropriate fees calculated as follows: \$600 base fee, plus an additional \$300 per acre, or major fraction thereof, of the project site, up to a maximum of \$10,000. Fees should be made payable to the City and County of Honolulu and are non-refundable.
- C. Written Statement. Your application package must include two copies of the following material. If you are submitting a multi-permit application, please submit two copies for each permit.

Upon completion of the DPP's initial review of your submittal, you will be notified of the number of ADDITIONAL copies required for agency and community review and comment.

The written statement must address the following issues:

- 1. Project. Describe the proposed project, including the following if applicable:
 - a. Details on existing and proposed uses, operations and activities, such as hours of operation, number of persons (clients and staff) on the site, occupancy of structures (use and number).
 - b. Details on existing and proposed structures and physical alterations to the project site, including parking areas, grading, landscaping, building heights, setbacks and buffering from adjoining parcels.
 - c. Details on existing and proposed dwelling units and proposed uses, including number, type (number of stories), size (number of bedrooms and baths, square footage of

each unit), and form of ultimate ownership (fee, lease or rental).

- d. Information on hazardous areas (flood, soils, slides, drainage, etc.) including any soils analysis and/or drainage studies.
- e. Development schedule (number of units and other development features for each phase).
- f. Proposed methods to maintain and conserve all common areas, landscaping and recreational facilities.

2. Additional Narrative For Agricultural Clusters. For Agricultural Clusters, provide two (2) copies of additional narrative addressing the following:

- a. An analysis of agricultural use of the proposed cluster, based on marketability, soils analysis, availability of water, consideration of climate, rainfall and other factors related to agricultural productivity, sufficient to demonstrate that agricultural use will constitute the primary activity undertaken on the land.
- b. Verification by the Board of Water Supply of the availability of sufficient agricultural quality water to support agricultural use, whether such water is to be supplied by the Board or another water supplier.
- c. Notice that building permit applications shall include an agricultural plan for farm dwellings indicating how feasible agricultural use on the lots will be carried out within a period not to exceed 5 years, to be provided in the sales agreement, deeds, covenants and other instrument of conveyances.
- d. In conjunction with item D(10) below, or if not proposed to be subdivided then with boundary lines, areas and dimensions, plans showing each farm dwelling unit and accessory uses contained within a lot or area not to exceed 5,000 square feet.

3. Infrastructure. Describe existing and proposed infrastructure, and indicate whether these facilities are or will be publicly or privately

owned, including the following if applicable (preliminary checks with the appropriate agency are encouraged):

a. Wastewater disposal

Contact DPP, Wastewater Branch at 768-8197 or State Department of Health at 586-4294.

b. Water facilities

Contact Board of Water Supply, Project Review Section at 748-5440.

c. Roads and circulation

Describe proposed road improvements, dimensions of all new roads (R.O.W.) and actual pavement width. A traffic impact analysis may be required.

Contact DPP, Traffic Review Branch at 768-8077 and/or State Department of Transportation for details.

4. Relationship to Neighborhood. Describe the relationship of the project to the neighborhood in which it is proposed to be established, as well as all issues or causes of concern relating to the project from the communities standpoint. Describe the measures, if any, taken to mitigate such issues or concerns.

5. Other Impacts. Describe any other expected project impacts and proposed mitigative measures to address such impacts including the following, if applicable:

a. Public services

(1) Refuse collection

(2) Fire protection

(3) Police services

(4) Schools

b. Physical environment

(1) Natural land forms

- (2) Public or desirable views
 - (3) Natural habitats
 - (4) Historic sites
 - (5) Exceptional trees
 - c. Parks and recreation
 - d. Other impacts
6. Justification. Explain how the proposed project will satisfy the affected cluster objectives and standards.

D. Drawings/Plans. Submit two (2) sets of the following drawings and/or plans applicable to the project. All drawings/plans must be black line prints, drawn to scale and prepared by a draftsman, architect, engineer, or similar professional. For document imaging purposes, one (1) set of drawings shall be a maximum size of 11" x 17" and the second should not exceed 24" x 36". DPP staff may request additional copies after acceptance of the application.

1. Existing Conditions Site Plan¹, prepared and certified by a registered engineer or surveyor, which shows the following:

- a. Metes and bounds with the total zoning lot area and any deed restrictions.

For sites with slopes of more than 10 percent, show contours and acreage for every 10 percent increase in slope either shaded or colored.

If the property fronts the shoreline, show the shoreline and shoreline setback line prepared and certified by a registered land surveyor and certified by the State Surveyor and Director of Land and Natural Resources within one year of the application date.

¹ If simple, this existing conditions site plan may be combined with the project site plan.

- b. Approximate location of areas subject to inundation or storm water overflow, and all areas covered by waterways, including ditches, gullies, streams and drainage courses within or abutting the site and features such as slide areas or falling boulder areas likely to be harmful to the project or the surrounding area.
 - c. Approximate location and general description of any historical or significant landmarks or other natural features, trees with a trunk diameter of 6 inches or more at 5 feet above ground, and an indication of the proposed retention or disposition of such features.
 - d. Stream and flood area setback lines and flood elevations as indicated by the Federal Flood Insurance Rate Maps.
2. Preliminary Site Plan, which includes the following:
- a. Property lines and all existing and proposed easements with dimensions, lot area and purpose of easements.
 - b. Location of all existing and proposed improvements and all ground level open areas. (Indicate if existing structures are to remain, be altered or be removed.)
 - c. Building dimensions and all setbacks from property lines.
 - d. Parking and loading stalls layout, and total number of stalls required and provided. (Indicate existing streets, street names, and vehicular access to the site.)
3. Preliminary Utility Plans, including existing and proposed sewers, water, electricity, telephone, refuse, fire hydrants and lighting, as well as the following:
- a. Grading² and Drainage Plan which indicates adequate site drainage, extent of grading, and proposed erosion control. Show existing contours at vertical intervals of 5 feet where the slope is greater than 10 percent and not more than 2 feet where the slope is less than 10 percent. Proposed grading must be shown by contours, spot elevations or other means. Also include cut and fill areas and estimated quantities of cut and fill.

²

May be combined with utility plan.

- b. Roadways and street fixtures which indicate street names, dimensions, approximate gradients and radius of curves, and which roadways are to be dedicated to the City, or whether the streets, improvements, facilities and easements are to be private.
4. Preliminary Floor Plans and Area Calculations, showing all dimensions used in calculating proposed floor area and building area. (Indicate the elements used in the calculation of these areas for each floor and include the tabulation of total proposed floor area and total allowable floor area.)
5. Exterior Elevations and Sections, with dimensions and existing/proposed finish grades, including all building heights and envelopes measured from these grades, all setbacks from property lines as well as any dimensions between structures.
6. Outline Specifications or Samples of exterior finish, texture, material and color for all exterior finishes.
7. Open Space/ Recreational Plans and Area Calculations, showing all common areas, open space and elements, with boundaries, dimensions, areas and proposed recreational improvements and facilities to satisfy park dedication requirements. (If land credit for the cost of facilities is used, provide estimates for the cost to construct the proposed recreational facilities.)
8. Parking and Loading Plans and Calculations, with dimensions of all stalls, aisles, driveways and setbacks from property lines and proposed structures, the total number of required and proposed parking and loading stalls, as well as the number of assigned private and common guest parking (covered and uncovered).
9. Preliminary Landscape Plans, which include:
 - a. Location, specie, quantity, size and spacing of all landscaping, including proposed landscaping and all existing trees 6" or greater in trunk diameter and its proposed disposition.
 - b. Landscaping in relation to existing and proposed structures, fences, walls, driveways, parking lots, rock gardens, fountains, pools and other landscape features.

- c. Pedestrian pathway system, and public access to the shoreline or mountains where applicable.
10. Preliminary Subdivision Map. If applicable, include a proposed subdivision lot layout with approximate dimensions, lot number of each lot, area of each lot, proposed use of each lot, total number of lots and total area of project. For certain projects, a potential subdivision plan may be requested which would show how the site could be subdivided under Subdivision Rules and Regulations.
- E. Photos. Submit photographic documentation of the property taken from the adjoining streets (If possible, panoramic spliced photos of site).
- (Note: all photos should be labeled and keyed to a general site map.)*
- F. Park Dedication. Submit Park Dedication application (refer to park dedication instructions).

Note: All scaled plans and drawings **must** include a graphic ("bar") scale in addition to or in lieu of a verbal scale.

Note: ELECTRONIC DOCUMENT SUBMITTALS : Electronic document submittals shall adhere to the following specified formats: PDF, JPEG, Word (preferred for text documents) or Wordperfect 8. Electronic documents **must** be submitted on either CD (preferred) or 3-5-inch floppy disk. ALL maps, drawings and/or plans **must** be drawn to an appropriate scale, and **must** include a graphic ("bar") scale accurately representing the applicable scale of the document.

For further assistance or information on how to complete the application, please call the DPP at 768-8028.

APPLICATION CHECK LIST

| | | |
|----|--|--|
| 1. | Pre-Application 21-day conceptual review (optional) | |
| 2. | Master Application Form | |
| 3. | Fees | |
| 4. | Written Statement (2 copies) | |
| 5. | Drawings/Plans - 2 sets drawn to scale, 1 set max. 11" x 17" and 2nd set max. 24" x 36". | |
| 6. | Photos - 1 set (labeled and keyed to general site map; include, if possible, panoramic spliced photos of site) | |

*Note: This list is intended as a general reference for applicants. Please refer to the attached permit instruction sheets for **complete** application requirements.

The adequacy/completeness of application submittals for acceptance will be determined by the DPP within 10 working days of application submittal.
