

KĀNE‘OHE TOWN PLAN

including town center planning and town traffic circulation study

The Kaneohe Town Plan focuses on town center concepts at Windward Mall, potential linkages to Kaneohe Bay, and looks at issues of mobility and connectivity for residents, both town-wide and in the Windward Mall area. The town center focus is to create a comprehensive and integrated pedestrian district that supports pedestrian activity in public spaces and improved connectivity between the many uses in the area. The Kaneohe Town Plan further encourages improved connectivity in the larger town-wide study area, as a means to address traffic congestion.

Kaneohe Town Master Plan
