

EAST KAPOLEI NEIGHBORHOOD

TRANSIT-ORIENTED DEVELOPMENT PLAN

An Innovative Plan

Honolulu Rail Transit has three stations planned in the East Kapolei area, bringing exciting opportunities for Transit-Oriented Development (TOD). The Ho'opili, UHWO and East Kapolei (Kroc Center) station areas will provide unique destinations for local residents and visitors while improving the overall transportation network of the region.

Needs Community Involvement

The sharing of your ideas and perspectives is key to the success of the Plan. A series of workshops will provide opportunities to learn about TOD, share ideas and comment on the project.

A community task force has also been created to advise and assist with the planning process. Its members represent various organizations and interests of the surrounding communities.

We invite you to view the following:

Community Workshop 3 - April 22, 2010

Open House presentation of the Public Review Draft

- Display Boards
- Public Review Draft - comments due June 30, 2010.

Community Workshop 2 - July 15, 2009

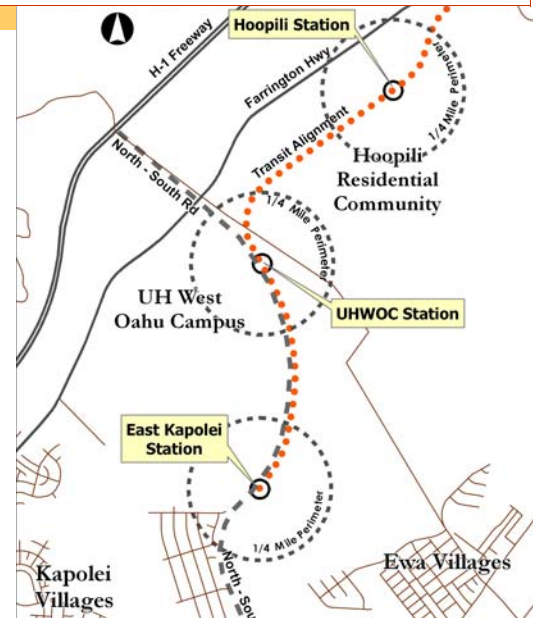

Presentation and discussion on the developed Preferred Station Area Alternatives.

- Powerpoint Presentation
- Summary of Discussion

Community Workshop 1 - March 18, 2009

Presentation and discussion on Plan Principles and Refined Plan Alternatives.

- Powerpoint Presentation
- Summary of Small Group Discussions

We encourage you to...

get on BOARD!
